The following is an outline of what will be sent when transmitting ANSI X.12 850 Purchase Orders to a Supplier. For definitions of the segments, please see the ANSI X.12 industry conventions and guidelines for EDI.

Purchase orders should be sent in an 850 spreadsheet, extended format. The following segments are based on ANSI X.12 4010. Refer to individual manuals for differences in standards.

In lieu of the Purchase Order change document (860), vendors may receive a retransmission of Purchase Order numbers that includes changes. Please note, duplicate transmissions will be flagged by 07 in the BEG 01 segment. Do not double ship.

All EDI documents transmitted to Macy's must reflect the selling unit UPC.

<p><b>Note:</b> Functional Acknowledgments are required from vendors for all documents sent by Macy's.</p>
